

WeatherFAST

Guarantee

WeatherFAST offer a 25 Year guarantee for its high performance Fatra PVC membrane steel. This is backed by a Fatra product guarantee for the membrane element of the WeatherFAST product, which covers any defects within the membrane caused by the manufacturing process of the membrane.

Details of the Guarantee

If any faults occur demonstrably resulting from a defect within the membrane or from the manufacturing process carried out by WeatherFAST, the manufacturer will provide sufficient material required to rectify said faults free of charge and ensure repairs are made without cost. WeatherFAST will carry out an inspection to ascertain the fault and what remedial action is required.

The Guarantee period commences from the delivery to the initial customer.

The Guarantee will last for a period of no longer than 25 years and will not be extended by any interim repairs.

Conditions required for application of this Guarantee

- ☒ The product has been installed as per the recommendations of both WeatherFAST and Fatra
- ☒ Installation must be carried out by approved Fatra Installers
- ☒ The installation should be inspected and passed by a Fatra or WeatherFAST approved inspector
- ☒ Sufficient opportunity must be given to WeatherFAST to inspect any reported defect
- ☒ Any care and maintenance should follow the guidelines set out by WeatherFAST and Fatra

*This guarantee does not cover defects caused by mechanical actions, unusual physical, chemical effects. Other defects that occur though poor installation, fabrication or design within the gutter system or roof structure are also not covered.
