# Introducing the WeatherFOLD gutter system

Quick, simple & easy for any gutter refurbishment and can also be used on new projects.

Designed for use on commercial and industrial gutter systems, Fatra 1.2 mm PVC, bonded to a 0.6 mm steel substrate, available upto 1500 mm wide x 3000 mm lengths with a built in 75 mm end lap.

Our Weatherfold gutter system offers a 30 year product guarantee.

# 1..... 2..... 3.....

Simple steps to your perfect leak free, relined gutter

**Before**

**After**

The certificates from the BBA bring together a number of tests including physical performance and fire resistance and certify the product is 'fit for purpose'. In the case of Fatra the BBA has given a life expectancy of in excess of 35 years

## Guaranteed Service

Our system extends the working and service life of any gutter system, as high performance stabilised PVC ensures corrosion of the weather face of gutter is eliminated. This also means that low levels of maintenance and minimal remedial repairs are required once installed, the PVC lined system offers a sustained waterproofing service for 30 years.

This guarantee is backed by Fatra UK
